Princess Lands!

One week ago [May 11, 2014](#) [John Carroll, MD](#)

Princess—She wanted an exit row seat so she could stretch her legs... May 10, 2014 (Photo by John Carroll)

This 5 month old girl from Port-au-Prince traveled safely to Columbus, OH, May 10 and is scheduled for heart surgery today, May 21. Her case is complicated with a hole between the two upper chambers and a hole between the two lower chambers. She will probably require two surgeries.

We pray for all those involved in her care, and thank the Lord for this amazing provision of a charity surgery for a little girl who couldn't live longer without it. May God be glorified and bring people to faith in our great God.

A very joyful Susanne Fassel has joined Susanne Baerg and me in our home as she studies Creole. She is a pediatric nurse from Germany. Welcome Susanne #2!

Kerlancia is one of the Bible club children who prayed to receive Jesus as her Savior this spring. She comes regularly and shows delight in learning God's word. We pray God will water the seed of His word in her heart and in the lives of all the children in our Torbeck Bible club. We pray their friends and family will see the witness of fruit in their lives. There are about 150 who gather on Friday afternoons.

February 8, our clinic staff received Dr Bill and his family: his wife, Karen, son James and daughter-in-law, Jenn, at the beach at Zanglais. They had just arrived for a week of service. It was a great day enjoying the beauty of the Caribbean and the fun of fellowship. God gave us a great week, working together.

Dr Bill came through his surgery well, May 9. Our awesome God has answered many prayers. His family who are with him in Pittsburgh have been so thankful for a shorter surgery and quicker recovery than the first surgery last year. We pray for God's healing grace day by day, and strength for the ride home to Grand Rapids on Thursday. The surgeon said the cancer removed in the surgery seemed to be less aggressive. We await the pathology report.

Praise and Prayer

Dr Sid F will come June 7-14 to help us organize a new treatment program for our diabetic patients. The costs of insulin and blood sugar testing are beyond the means of many. High blood sugars lead them to major health problems. We'd like to start a "Diabetic Club", and need wisdom and financial help for helping as many as we can get good control of their blood sugars.

Dr Jim W will be with us June 14-21 to give supervision in the OR, standing in for Dr Bill.

June 24 I will head to Ohio for some medical check-ups, R&R, and good opportunity to visit with partners of my ministry. Is there a good time when I can see you? Drop me a note at my email address.

We were saddened to hear that Dr Tom and his family won't be coming to join us at our clinic/hospital, Centre de Sante Lumiere, and won't be here to participate in our nurse practitioner training. Pray with us for a French speaking trainer of nurse practitioners.

I praise the Lord for you as I see the fruit of your prayers and experience God's provisions. God gives protection, strength, courage and lovely opportunities to share Jesus.

I pray the blessings of God's loving grace for you and your loved ones,

1431 Stuckert Rd Warrington, PA 18976
